SUBJECT LINE:
Position Opening – Washington Health Alliance Seeks Executive Director

Dear Feedback Network Member,

A nonprofit partner that made significant contributions to development of the State Health Care Innovation Plan is seeking a new Executive Director. The Washington Health Alliance—formerly known as the Puget Sound Health Alliance—worked with State agencies and stakeholders across Washington in the development of the Innovation Plan’s health care delivery strategies, including delivery design, payment to providers, benefit design and patient engagement.

The Washington Health Alliance will continue to be actively involved in health care transformation in the years ahead. The Executive Director serves and provides leadership to the organization’s board of directors, staff, member organizations, committees and funding partners. To learn more about the Executive Director opening, visit the Alliance’s [position announcement](#) or request a detailed Position Specification by emailing grahamgrp@comcast.net.

Formed in 2004, the Alliance is one of 16 organizations that are part of the Robert Wood Johnson Foundation’s *Aligning Forces for Quality* (AF4Q) initiative. More information on the Washington Health Alliance is available on the [Alliance website](#).
